Our leadership has over a decade of experience working in the trenches of AR product and content creation. Our team has delivered dozens of successful AR products and applications and won Best-In-Show at the Augmented World Expo.
Unbnd	Agency	https://unbnd.com.au/	Unbnd is an immersive technology creative agency built around a team of futurists, artists, nerds and thinkers. We specialize in AR, WebAR, SocialAR, VR and interactive installations.
Xtender	Agency	https://xtendr.co/	We at Xtendr create conversations with objects and those interacting with it in the next dimension. Helping brands and business extend their footprint in the Meta Reality
Bully!	Agency / Studio	https://bullyentertainment.com/	Whether it's extending a blockbuster feature into an XR platform, creating an immersive story around a service line, or engaging conference-goers in brand messaging, we blend UX, high production value visuals, and seamless execution to tell great, experiential stories.
Buu Digital Group	Agency	https://buudigital.com.br/	Smart App APP UX & UI, branding e communication. Visual Identity applied to UX & UI strengthens the bond between user and brand
Next / Now	Agency	https://nextnowagency.com/	Next/Now is an award-winning experiential agency focused on multimedia design and digital exhibition design. Our industry-leading process will help you create unforgettable moments of connection for you and your consumers. Our all-in-one team of over 40 employees includes large art and development teams, often utilizing new tech solutions within our work such as AR, VR, XR, and generative art.
Orb Amsterdam	Agency	https://orbamsterdam.com/	Orb Amsterdam is a creative technology studio. We enhance people's lives by making innovative augmented reality experiences. Our clients say we do a good job and we are fun people to work with.
Rose	Agency	https://builtbyrose.co/	At ROSE, we're focused on innovation. What sets us apart from other digital agencies is our expertise in augmented reality and digital transformation. We know how to harness AR to bring digital experiences and products to life in any user's physical space. We know how to create game-changing web and mobile experiences using digital strategy, UX and UI design, best-in-class technical execution, and thorough Quality Assurance. Our goal is to always use our strategy, design, and technical expertise to reduce the risk and pain of innovation.
Tactic Studio	Agency	https://tactic.studio/	We make experiences and experiential content of all types focused on immersive digital platforms and installations. We do this with an emphasis on AR/VR/MR/XR. We work across platforms and we "get" integrated communications. We create the technology that delivers that content as an experience – whether it's an installation, an app, a headset, game, or site. We consult with agencies and brands on technology applications and creative opportunities in emerging media. We make mobile apps that transform ordinary things into extraordinary ones, and objects into games. We create products and inventions because most ideas can become products. Apps as media properties. Content as a channel.
Trigger	Agency	https://www.triggerxr.com/	Trigger is a full-service agency that creates innovative and impactful XR solutions for the world's top brands, employing emerging AR and VR technology that push the boundaries of what is possible in XR across entertainment, sports, e-commerce and enterprise.
