| Finance             | AcknoLedger is a Global Consortium that maps, monetizes, and distributes Web 3.0 Digital Assets Seamlessly across all the Metaverses and Gaming NFTs. We envision to be the Nervous System of Web 3.0 Digital Assets. Acknoledger will work on a M2D Model. UCNS (UNIVERSAL CONTENT NUMBERING SCHEME): Universal Content Number Scheme (UCNS) is used to create an Ecosystem to map all the NFTs across the Metaverses. UCNS is the World's first decentralized nomenclature system that will be adopted and used as a Universal Standard. UCNS will be used to verify the authenticity of NFTs across Digital Universe. | <a href="https://acknoledger.com/">https://acknoledger.com/</a>                                 |
| Creation Software   | Adobe Creative Cloud is a set of applications and services from Adobe Inc. that gives subscribers access to a collection of software used for graphic design, video editing, web development, photography, along with a set of mobile applications and also some optional cloud services.  | <a href="https://www.adobe.com/creativecloud.html">https://www.adobe.com/creativecloud.html</a> |
| Creation Software   | Best in class for creating concept art, print projects, logos, icons, UI designs, mock-ups and more, our powerful design app is already the choice of thousands of professional illustrators, web designers and game developers who love its silky-smooth combination of vector and raster design tools.   | <a href="https://affinity.serif.com/en-us/">https://affinity.serif.com/en-us/</a>               |
| Web AR & VR         | Market-leading, end-to-end WebXR Development Agency focused exclusively on designing, building and deploying WebXR experiences. Aircards offers an exclusive Spatial Analytics feature for tracking detailed user behavior within any 3D scene.  | <a href="https://www.aircards.co/">https://www.aircards.co/</a>                                 |
| Animation Software  | Anima Toon is a unique animation software which allows artists to create and animate 3D Voxel characters easily. An extremely fast 3d animation and modeling program for iOS, Windows, Mac and ChromeOS. Made by an animator, for animators with a focus on lightning fast workflow and ease of use in creating and animating 3d voxel characters  | <a href="https://animatoon.org/">https://animatoon.org/</a>                                     |
| Steam / Oculus Game | Livestream, video chat, and record videos as incredible 2D and 3D avatars! Use one of the over 50 avatars provided or import your own 2D, 3D, VRM or Ready Player Me model. Animaze redefines avatar embodiment with enhanced face tracking, expressive animation, and improved graphics   | <a href="https://www.animaze.us/">https://www.animaze.us/</a>                                   |
| Stock Content       | ArchiUp.com is free database of digital resources designated for effective design work.  | <a href="https://archiup.com/en/">https://archiup.com/en/</a>                                   |
| App / Tool          | ArcSite is an easy-to-use drawing program, created to help in-home sales professionals save time, close more deals, and stand out from their competition. CAD design is integral to everything around us, from the car you take to work to the house that you call home. These designs used to only be achievable by engineers on high-powered desktop computers. Our Founder, Pei Zhan, saw an opportunity to democratize CAD and allow anyone to learn this valuable skill set. Now with ArcSite, anyone with a desire to learn can design anything, anywhere.   | <a href="https://www.arcsite.com/">https://www.arcsite.com/</a>                                 |
| Artwork Marketplace | Art Blocks is leading a new generation of art. Hosting projects from today's most innovative digital artists, our platform combines creative coding with blockchain technology to establish a new paradigm for the creation and ownership of art. Collectors actively participate in realizing an artist's vision by generating unique algorithmic artworks. This symbiotic relationship and shared experience form the basis of our dynamic community. We invite you to join us as we build a home for the future of generative art.  | <a href="https://www.artblocks.io/">https://www.artblocks.io/</a>                               |
| Digital Marketplace | ArtStation provides you with a simple, yet powerful way to show your portfolio and be seen by the right people in the industry. It's super fast and sleek. Showcase high resolution images, videos, short clips, Marmoset and Sketchfab 3D scenes, 360 panos and more. Add your work and production experience.  | <a href="https://www.artstation.com/">https://www.artstation.com/</a>                           |
| App / Tool          | The augmented reality platform that generates business and commercial benefits Easily deploy and manage visualization solutions for R&D, field sales, eCommerce, training and more.  | <a href="https://www.augment.com/">https://www.augment.com/</a>                                 |
| Creation Software   | Our technology spans architecture, engineering and construction, product design and manufacturing, and media and entertainment, empowering innovators everywhere to solve challenges big and small.  | <a href="https://www.autodesk.com/">https://www.autodesk.com/</a>                               |

|-------------------|--|---|
| Gaming            | Axie Infinity is a virtual world full of fierce, adorable pets called Axies. Axies can be battled, collected, and even used to earn cryptocurrencies with real value. - Axie Infinity is a Pokémon-inspired universe where anyone can earn tokens through skilled gameplay and contributions to the ecosystem. Players can battle, collect, raise, and build a land-based kingdom for their pets.  | <a href="https://axieinfinity.com/">https://axieinfinity.com/</a>                             |
| Software Platform | The new way to communicate, in Augmented Reality. You can now livestream in AR and share pre-recorded messages to your contacts quickly and easily   | <a href="https://www.beem.me/">https://www.beem.me/</a>                                       |
| Creation Software | Blender is the free and open source 3D creation suite. It supports the entirety of the 3D pipeline—modeling, rigging, animation, simulation, rendering, compositing and motion tracking, even video editing and game creation. Advanced users employ Blender's API for Python scripting to customize the application and write specialized tools; often these are included in Blender's future releases. Blender is well suited to individuals and small studios who benefit from its unified pipeline and responsive development process. | <a href="https://www.blender.org/">https://www.blender.org/</a>                               |
| New               | We've partnered with the amazing people at Wolf3D to bring you their metaverse ready player characters. You can even generate one from your own likeness, using a selfie! We hope you have fun in our virtual venue environment!   | <a href="https://virtual.blindchihuahua.com/">https://virtual.blindchihuahua.com/</a>         |
| Non-Profit        | The Blockchain Game Alliance is an organization committed to promoting blockchain within the game industry. Our goal is to spread awareness about blockchain technologies and encourage adoption by highlighting their potential to foster new ways to create, publish, play, and build strong communities around games. The BGA also provides an open forum for individuals and companies to share knowledge and collaborate, create common standards, establish best practices, and network.   | <a href="https://www.blockchaingamealliance.org/">https://www.blockchaingamealliance.org/</a> |
| Fashion           | Bru is a leading global supplier of interior furnishing fabrics. Our extensive collections and designs contain fabrics that meet all requirements, including upholstery, curtains and drapery. Both physically and digitally.  | <a href="https://twinbru.com/">https://twinbru.com/</a>                                       |
| Augmented Reality | Your projects come to life with our products based on Augmented Reality, Mixed Reality and Web VR technologies. We develop solutions to transform the real world into immersive experiences.   | <a href="https://camonapp.com/en/">https://camonapp.com/en/</a>                               |
| Creation Software | Chaos is a world leader in visualization and computer graphics. We create technology that empowers artists and designers to visualize anything they can imagine. Our ecosystem of 3D rendering, real-time rendering and simulation software is used by top design studios, architectural firms, advertising agencies, and visual effects companies around the globe. With our continued research and advancements in ray-traced rendering, cloud rendering, and real-time exploration, we make the tools to help you create your world.    | <a href="https://www.chaos.com/">https://www.chaos.com/</a>                                   |
| XR Studio         | (Orem, UT, US) Continuum and its team of producers, modelers, developers, and animators have been using 8th Wall to create engaging WebAR experiences. Our focus is to increase dwell time, conversions, and ROI via gamification and analytics.   | <a href="https://www.continuum-xr.com/">https://www.continuum-xr.com/</a>                     |
| VR Space          | Watch TV with friends, no matter where they are or what device they're using. You can stream your: camera, computer screen, or a Desktop Vision computer to your virtual living room's tv. Your virtual living room is built for VR, but friends can visit using any device: mobile, desktop, VR headsets, or AR devices. All they need is a modern web browser.   | <a href="https://couch.live/">https://couch.live/</a>   |
| Startup           | Crucible is working to create the open infrastructure that joins the worlds of many talented game developers, web developers and artists without the “walled garden” or closed platform effects that have crippled our current social media and technology business models. In joining these systems together and empowering true user sovereignty and portable digital identity, we are working to prove the business cases behind concepts like “foot traffic” and digital tourism in an Open Metaverse.                                 | <a href="https://crucible.network/">https://crucible.network/</a>                             |

| Metaverse                   | Determine the future of the virtual world. The first fully decentralized world, Decentraland is controlled via the DAO, which owns the most important smart contracts and assets of Decentraland. Via the DAO, you decide and vote on how the world works. What is the Decentraland DAO? DAO stands for "Decentralized Autonomous Organization". The Decentraland DAO owns the most important smart contracts and assets that make up Decentraland – the LAND Contract, the Estates Contract, Wearables, Content Servers and the Marketplace. It also owns a substantial purse of MANA which allows it to be truly autonomous as well as subsidize various operations and initiatives throughout Decentraland.   | <a href="https://decentraland.org/">https://decentraland.org/</a>                                 |
| Community Platform          | Discord is the easiest way to talk over voice, video, and text. Talk, chat, hang out, and stay close with your friends and communities.  | <a href="https://discord.com/">https://discord.com/</a>   |
| Creation Software           | Owned by E-on Software - E-on software is the leading developer of solutions for the creation, animation, rendering and integration of natural 3D environments. Our products are used worldwide by the film, television, architecture, game, science, educational and entertainment industries.  | <a href="https://info.e-onsoftware.com/home">https://info.e-onsoftware.com/home</a>               |
| Esports / Creation Software | Epic Games, Inc. is an American video game and software developer and publisher based in Cary, North Carolina. The company was founded by Tim Sweeney as Potomac Computer Systems in 1991, originally located in his parents' house in Potomac, Maryland. Following his first commercial video game ... | AR                          | Eyekandy is the world's leading Augmented Reality development agency for Commerce. The Point & Place® Augmented Reality Shopping Platform has been adopted by hundreds of retailers, in fifteen native languages, in over forty countries and leads the way in omni-channel AR Shopping for Retailers and Brands.  | <a href="https://eyekandy.com/">https://eyekandy.com/</a>   |
| Gaming                      | We believe the blockchain should be invisible in our games. We use simple game mechanics that all players can enjoy, whether or not they consider themselves to be blockchain pros. Players get to truly own what they win in our games. If you earn or win a magical sword on the Gala Game Platform, it is yours. Your items and any inherited status is a verifiable asset on the blockchain you can trade to another person or play with in-game. We don't develop games in a vacuum, we constantly engage and test assumptions with our Discord community. We build alongside a vocal community whose input shapes the direction each game's design takes. Everything within the Gala Games Network depends on the player-owned Node Ecosystem. The Gala Network is supported by users, just like you, who operate Gala Nodes from their home computers. Get yours today! The decentralized Gala Games ecosystem aspires to blow the doors wide open and give players back the control they deserve. Through decentralization, players not only own their in-games items, but they have a voice in how the Gala Games roadmap develops. Players and node owners will be enlisted, via distributed voting mechanisms, to help determine what games should be added to the platform or what should be funded by the decentralized Gala Games ecosystem. | <a href="https://app.gala.games/">https://app.gala.games/</a>                                     |

| Creation Software            | Godot provides a huge set of common tools, so you can just focus on making your game without reinventing the wheel. Godot is completely free and open-source under the very permissive MIT license. No strings attached, no royalties, nothing. Your game is yours, down to the last line of engine code.   | <a href="https://godotengine.org/">https://godotengine.org/</a>                     |
| Creation Software (AEC)      | GRAPHISOFT's Virtual Building concept represented a milestone in CAD development and established itself at the forefront of the architecture, engineering and construction industry under a new name: Building Information Modeling, or simply, BIM. Our mission at GRAPHISOFT is to empower your team of building professionals with advanced technology and accompanying know-how to help fulfil your mission: to create great architecture. We believe that integrating people, workflows, and information in real-time is critical for your success, where our award-winning solutions provide unrivaled open BIM workflows. Our superior teamwork and mobile solutions help engage all project stakeholders in real-time.  | <a href="https://graphisoft.com/us">https://graphisoft.com/us</a>                   |
| Creation Software (Lighting) | HDR Light Studio adds a dedicated lighting interface and HDR lighting content to your existing 3D software. Build your own unique HDRI maps and HDR textured area light setups.   | <a href="https://www.lightmap.co.uk/">https://www.lightmap.co.uk/</a>               |
| Digital Advertising          | Inspiring your digital creative to do more. We want to enable brands by expanding their creative potential, going beyond the banner & opening up new ways to engage audiences through innovative advertising.   | <a href="https://hoopligital.co.uk/">https://hoopligital.co.uk/</a>                 |
| VR Space                     | Hubs is a virtual collaboration platform that runs in your browser. With Hubs you can create your own 3D spaces with a single click. Invite others to join using a URL. No installation or app store required. Hubs is for anyone who wants to connect with others remotely! It's a great way to bring communities together in a shared virtual space. Host a conference, teach a class, showcase art, or just hang out with friends. Hubs makes it easy to connect and share images, videos, 3D models, and more. With Hubs' spatialized audio you can have conversations with everyone together or break out into smaller groups — just like you can in person. Hubs works across platforms. Got a VR headset? Awesome! If not, you can use your desktop computer, laptop, tablet, or mobile devices to explore in 2D (see supported browsers). | <a href="https://hubs.mozilla.com/">https://hubs.mozilla.com/</a>                   |
| Game                         | Illuvium is an open-world exploration, NFT creature collector and autobattler game built on the Ethereum Blockchain, releasing on PC and Mac in 2022. Play-to-earn in a graphically-rich sci-fi adventure and conquer the wilderness to help your crash-landed crew flourish.   | <a href="https://www.illuvium.io/">https://www.illuvium.io/</a>                     |

| Creation Software              | In 1999 sparked the growth of the PC gaming market, redefined modern computer graphics, and revolutionized parallel computing. More recently, GPU deep learning ignited modern AI — the next era of computing — with the GPU acting as the brain of computers, robots, and self-driving cars that can perceive and understand the world.   | <a href="https://www.nvidia.com/en-us/">https://www.nvidia.com/en-us/</a>                                   |
| VR Spaces                      | Create extraordinary metaverse brand experiences—right in your browser.  | <a href="https://www.odyssey.stream/">https://www.odyssey.stream/</a>                                       |
| Creation Software              | Onshape is a computer-aided design (CAD) software system, delivered over the Internet via a software as a service (SAAS) model. It makes extensive use of cloud computing, with compute-intensive processing and rendering performed on Internet-based servers, and users are able to interact with the system via a web browser or the iOS and Android apps.[1] As a SAAS system, Onshape upgrades are released directly to the web interface, and the software does not require maintenance work from the user.[2] | <a href="https://www.onshape.com/en/">https://www.onshape.com/en/</a>                                       |
| Creation Software              | An open-source, real-time 3D development engine - Open 3D Engine (O3DE) is a modular, open source, cross-platform 3D engine built to power anything from AAA games to cinema-quality 3D worlds to high-fidelity simulations. No fees or commercial obligations. Apache 2.0-licensed. Managed by The Linux Foundation.  | <a href="https://www.o3de.org/">https://www.o3de.org/</a>   |
| VR Universe                    | OVR is the decentralized infrastructure for the AR Metaverse, merging the physical and virtual world through Augmented Reality, creating a new dimension where   | <a href="https://www.ovr.ai/">https://www.ovr.ai/</a>   |
|                                | Ozone Metaverse is a next-gen platform to power the creation of the metaverse at internet-scale. ( <a href="https://ozoneuniverse.com/">https://ozoneuniverse.com/</a> )   | <a href="https://www.ozonemetaverse.io/">https://www.ozonemetaverse.io/</a>                                 |
| Creation Software              | ParaView is an open-source, multi-platform data analysis and visualization application. ParaView users can quickly build visualizations to analyze their data using qualitative and quantitative techniques. The data exploration can be done interactively in 3D or programmatically using ParaView's batch processing capabilities.  | <a href="https://www.paraview.org/">https://www.paraview.org/</a>   |
| Creation Software              | Capture, edit & share reality with the Polycam LiDAR 3D scanner app. Use your scans to take measurements, create 3D models, and share your world with friends & family. Available on all LiDAR-enabled iOS devices.  | <a href="https://poly.cam/">https://poly.cam/</a>   |
| Platform                       | Poplar Studio is the leading AR and 3D creative platform. From social marketing to ecommerce visualisation, we are a one stop shop for all AR and 3D campaigns and solutions. We take any brand asset or product, build them quickly into 3D and AR and deploy them into social and ecommerce platforms.   | <a href="https://poplar.studio/">https://poplar.studio/</a>   |
| Digital Creative Studio        | Labs - Sitting at the cutting edge of what technology can offer, our labs team build world first experiences that excite and elevate your brand above the noise.<br>Products - Our industry leading product offerings are built for scale, robustness and audience engagement, giving you comfort, security and maximum return. Creative - Answering challenges with storytelling, design and digital innovation that lasts. We help you engage and excite your audience where and when it matters.                  | <a href="https://www.powster.com/">https://www.powster.com/</a>   |
| Creation Software Conglomerate | ProGrupa was established in 2005 and is one of the greatest providers of specialized software for the design industry in Central and Eastern Europe. We specialize in the sale and distribution of software licenses such as Trimble SketchUp Pro, Rhinoceros, Cinema 4D, rendering engines as well as CAD programs and applications associated with them. The company runs a chain of online stores and progressively introduces new services in this industry.   | <a href="https://progrupa.com/en/">https://progrupa.com/en/</a>   |
| Metaverse Apparel              | Pull&Bear started up in 1991 with a clear international mission and with the intention of dressing young people who are engaged with their environment, who live in the community and relate to each other.  | <a href="https://www.pullandbear.com/us/metaverse-n7292">https://www.pullandbear.com/us/metaverse-n7292</a> |
| App / Tool                     | Qlone is an all-in-one 3D scanner app. We have made it easy and fast to create 3D models from real objects, edit them with built-in editing tools and seamlessly export the result to popular platforms, 3D file formats and 3D printers. You can even animate your models in AR!  | <a href="https://www.qlone.pro/">https://www.qlone.pro/</a>   |

| AR/VR Tool           | Real-time 3D human virtualization for everyone, everywhere. RADiCAL was founded to develop the world's most powerful computer vision technology focused on detecting and reconstructing 3D human motion from 2D content. AI-powered 3D motion capture — in the cloud and on every device. To achieve this, we are using multiple bodies of science in a proprietary configuration, including computer vision, deep learning and anthropometry. Our system continually learns and perpetually improves. In our minds, we will never truly be done. Our goal is to see the technology implemented across mobile, web and enterprise environments, seamlessly powering 3D animation in film, TV, art, gaming, AR/VR, as well as industrial and health applications. | <a href="https://getrad.co/">https://getrad.co/</a>                     |
| Creative App         | Free up your creative team's time by automating the creation of high-quality optimized 3D assets for web, mobile, AR and XR platforms  | <a href="https://rapidcompact.com/">https://rapidcompact.com/</a>       |
| Avatar               | Bring your brand to life with a digital character. Use the most advanced, real-time, cloud-based, voice-driven animation platform to create natural interactions between your customers, AIs, and avatars. Interested?   | <a href="https://www.rapport.cloud/">https://www.rapport.cloud/</a>     |
| VR Universe          | Reach Cloud is the Wix of the Metaverse. We are building the infrastructure and first hosting service for meta spaces. Currently hosting meta spaces for the healthcare, marketing, research, and education industries.  | <a href="https://reachmetaverse.org/">https://reachmetaverse.org/</a>   |
| Avatar Customization | Check out the app selections to connect with   | <a href="https://readyplayer.me/">https://readyplayer.me/</a>           |
| Creation Software    | Reallusion Inc. is a 2D and 3D animation software and content developer. Headquartered in Silicon Valley, with R&D centers in Taiwan, and offices and training centers in Germany and Japan. Reallusion specializes in the development of realtime cinematic animation, virtual production, and motion capture tools that connect professional 3D animation technologies to creators from indie to studio. The company provides users with pro character animation, facial and body mocap, and voice lipsync solutions for real-time filmmaking and previzualization and production. Reallusion's core technologies are widely used by trainers, educators, game developers and filmmakers.  | <a href="https://www.reallusion.com/">https://www.reallusion.com/</a>   |
| Avatar Customization | AI voice actors, for games, film, & the metaverse. Replica is at the cutting edge of AI voice technology and we want to explore with you new creative ways it can be used.   | <a href="https://replicastudios.com/">https://replicastudios.com/</a>   |
| Metaverse            | Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users.   | <a href="https://www.roblox.com/">https://www.roblox.com/</a>           |
| Studio               | We are a creator led organization. RTFKT uses the latest in game engines, NFT, blockchain authentication and augmented reality, combined with manufacturing expertise to create one of a kind sneakers and digital artifacts.  | <a href="https://rtfkt.com/">https://rtfkt.com/</a>                     |
| Metaverse            | The Sandbox is a community-driven platform where creators can monetize voxel ASSETS and gaming experiences on the blockchain.  | <a href="https://www.sandbox.game/en/">https://www.sandbox.game/en/</a> |
| App / Tool           | Scaniverse lets you capture, edit, and share 3D content directly from your phone. Using LiDAR, it builds 3D models with high fidelity and stunning detail.   | <a href="https://scaniverse.com/">https://scaniverse.com/</a>           |
| Creation Software    | For over thirty years, SideFX has been providing artists with procedural 3D animation and visual effects tools designed to create the highest-quality cinematic results. We are passionate about what our customers do because our roots are in production, both as artists and as pioneering technical innovators.  | <a href="https://www.sidefx.com/">https://www.sidefx.com/</a>           |
| Oculus               | SideQuest is a place to get more apps for your Oculus Quest, it is a completely safe way to enjoy some cutting edge content in VR and expand the capability of your standalone VR headset. We make it easier for users to access content that is not yet available on the Oculus Store and as a proving ground for developers to validate their content and kick start their communities. SideQuest is completely free for users and developers and always will be. We are committed to supporting the VR industry.  | <a href="https://sidequestvr.com/">https://sidequestvr.com/</a>         |
| Creative Content     | Manage your 3D assets. Distribute 3D & AR experiences. Collaborate with others. Showcase your work. Buy & sell 3D models.  | <a href="https://sketchfab.com/">https://sketchfab.com/</a>             |

| Creation Software  | Visualize your ideas. The joy of drawing by hand. The ease of super-smart 3D modeling software. Customize your 3D workspace<br>Hundreds of professionally-developed extensions at your fingertips. Design in 3D. Document in 2D. Make work easier.   | <a href="https://www.sketchup.com/">https://www.sketchup.com/</a>               |
| Universe           | Somnium Space is an Open, Social and Persistent Virtual Reality World, empowered by blockchain technology where everyone can buy land, build or import objects, use avatars and scripts, easily monetize their experiences and immerse themselves into a completely alternative reality. Virtual Reality is here, and the future looks amazing.  | <a href="https://somniumspace.com/">https://somniumspace.com/</a>               |
| VR Experience      | Space Virtual Reality Experience, Floating VR through space and observing the Earth, creates a shift in consciousness known as The Overview Effect.  | <a href="https://spacevr.co/">https://spacevr.co/</a>                           |
| VR Spaces          | Spatial is dedicated to helping creators and brands build their own spaces in the metaverse to share culture together. We empower our users to leverage their beautiful spaces to share eye popping content, build a tight knit community, and drive meaningful sales of their creative works and products. We also empower our users to create beautiful and functional 3D spaces that they can mint as NFTs and sell/rent to others looking to host mind blowing experiences.  | <a href="https://spatial.io/">https://spatial.io/</a>                           |
| Fashion            | Swatchbook is your digital fabric library, allowing you to organise, visualise and source digital materials on a leading cloud platform - any place, any time, any device. swatchbook<br>The new material marketplace for designers. Intuitive, intelligently designed apps for material sourcing and management, exploration, design and visualization combined with real-time analytics that are fundamentally changing the way brands collaborate with their supply chain - anywhere, anytime, on any device.   | <a href="https://www.swatchbook.us/">https://www.swatchbook.us/</a>             |
| Steam / Oculus     | syGlass software allows you to view your data in virtual reality in its actual 3D or 4D (over time) form. We specialize in presenting the very large data sets generated by modern imaging techniques, so standard image volumes are a snap. Use our tools to quantify your data with enhanced precision, or import results for rapid correction in VR. Our mission is to help scientists explore their data more creatively and understand and communicate their findings more efficiently.   | <a href="https://www.syglass.io/">https://www.syglass.io/</a>                   |
| Metaverse Clothing | The Fabricant established the groundwork for an entirely new non-physical fashion industry when it was founded in 2018 as the world's first digital-only fashion house. By splicing fashion with tech, it completely reimagined how garments could be created and experienced. Creative and innovative to the core, it is committed to burning down the traditional industry's toxic status quo to rebuild a more democratic, sustainable and equitable fashion system that operates purely in the digital realm. Through its decentralised co-creation platform The Fabricant Studio, it is enabling anyone to create, trade and wear digital garments as NFTs and benefit from their creative participation in the process. Globally recognised as a pioneer, its work has inspired a passionate community of digital fashionauts committed to building the wardrobe of the metaverse. | <a href="https://www.thefabricant.studio/">https://www.thefabricant.studio/</a> |
| App Developer      | Build web3 apps, easily. Smart contracts you control. Tools that accelerate your workflow. Intuitive SDKs and widgets for developers.  | <a href="https://thirdweb.com/">https://thirdweb.com/</a>                       |
| 3D Coding          | Three.js is a cross-browser JavaScript library and application programming interface (API) used to create and display animated 3D computer graphics in a web browser using WebGL. The source code is hosted in a repository on GitHub.   | <a href="https://threejs.org/">https://threejs.org/</a>                         |
|                    | Trimble is an industrial technology company, concentrated on helping the world work, better. Our technology enables jobs to get done more precisely and accurately so you can build, construct, grow and move the things we need to live our lives and build future communities.   |   |
| Creative Content   | Buy 3D models for your project from our vast online catalog of cars, people, textures, architectural models and more.  | <a href="https://www.turbosquid.com/">https://www.turbosquid.com/</a>           |
